

PRODUCT MATRIX

DRIP OIL

Long lasting lubrication

Prevents rust

Reduces friction

Easy to use drip spout

Use on:

Metal

Stainless steel

Best for:

Lubricating, cleaning, and protecting surfaces from rust and corrosion

Stand-out feature:

Easy-to-use directional spout for precise application

Suggested usages:

DIY and garden tools, gym equipment, zips, metal ornaments, wheels, fans, hinges, and moving parts

WHITE LITHIUM GREASE

Long lasting lubrication

Protected for longer

From -30 to 140°C

Best results on metal

Use on:

Metal

Best for:

Reducing friction and wear, protecting against rust and corrosion

Stand-out feature:

Convenient aerosol format that sprays on evenly as a liquid and sets dry leaving a thick coating

Suggested usages:

Hinges, latches, gates, bearings, DIY and garden tools, sliding doors, and power tools

OIL SPRAY

Long lasting lubrication

Protected for longer

Reduces friction

Stops squeaks

Use on:

Metal

Stainless steel

Best for:

Lubricating, cleaning, and protecting surfaces from rust and corrosion

Stand-out feature:

Handy spray format with application straw for precise application

Suggested usages:

Garden and power tools, hinges, sports equipment, locks, chains, wheels, fans, and moving parts

PENETRANT SPRAY

Rapid penetration

Loosens rusted parts

Removes grease

From -30 to 150°C

Use on:

Metal

Best for:

Loosening rusted, stuck or seized parts. Removing rust, grease and grime

Stand-out feature:

Fast acting penetration and rapid saturation to free metal parts

Suggested usages:

Chains, pipes, nuts, screws, bolts, locks, taps, door fittings, gates, valves and screw caps

DEGREASER SPRAY

Rapid foaming formula

Cleans oil and grease

Easy to rinse off

Keeps tools fresh

Use on:

Metal

Rubber

Plastic

Best for:

Deep cleaning, removing oil, grease, dirt and grime

Stand-out feature:

Deep penetrating citrus foaming action and powerful discharge rate

Suggested usages:

Van pop tops, rubber seals, plastic trims, UPVC windows and doors, patio furniture, kid's toys, lawnmowers, and tools

SILICONE SPRAY

Quick drying - No mess

Corrosion protection

NSF H2 registered

Reduces friction

Use on:

Metal

Rubber

Wood

Vinyl

Electrical parts

Best for:

Lubricating, cleaning, and protecting surfaces from rust and corrosion

Stand-out feature:

NSF H2 registered for safe use in food-related environments

Suggested usages:

Sliding rails, uPVC windows and doors, curtain rails, bearings, hinges, runners, electrical parts, and sports equipment
